3       This device will be available to the pool owner to clean  
4  
5 the surface debris from a pool on a twenty-four hour seven day  
6  
7 a week basis. It is free standing and can be moved from  
8  
9 location to location around the perimeter of the pool depending  
10  
11 on the pool. The ability to move it from location to location  
12  
13 allows maximum efficiency to clean a pool. The device allows  
14  
15 the net to be adjusted in a vertical direction to accommodate  
16  
17 the varying level of water in the pool.
